FINANCE DEPARTMENT, CANADA,
OTTAWA, 24th January, 1883.

To the Honorable
SIR S. L. TILLEY, C.B., K.C.M.G.,
Minister of Finance.

SIR,—I have the honor to submit to you the Public Accounts of Canada for the fiscal year ended the 30th June last, together with the usual comparative statements for all the preceding years since Confederation. These statements, pending the settlement of the Provincial Accounts, I have deemed it best to continue in the main in the same form as in previous years; the only alterations are the revision of the North-West Territory Expenditure Statement, and the addition to the "Comparative statement of Debt on each 1st July according to the rate of interest it bears," of a statement showing the actual net interest paid each year.

The expenditures on Capital Account during the year amount to $7,351,052.61, distributed amongst the following services:—

Intercolonial Railway	$ 585,568 79
Canadian Pacific Railway	4,589,075 79
Prince Edward Island Railway	402 03
Public Buildings, Ottawa	37,314 16
Welland Canal	603,402 17
Lachine Canal	252,821 33
St. Lawrence Canals	73,521 06
Ottawa Canals	655,809 90
Murray Canal	7,135 63
St. Peter's Canal	484 00
Land and Cable Telegraph Lines	33,635 43
Dominion Lands	511,882 32
	$7,351,052 61

These expenditures have been entirely provided for by receipts derived from the sale of Dominion Lands to the extent of $1.744,456.48, and by surplus revenues, which, including payments made for investments for the several Sinking Funds, aggregate $6,316,351.94.

During the year over $4,000,000 of Debt, bearing high rates of interest, have been retired, but on the other hand the Dominion Note circulation has increased slightly over $1,250,000, and the balance at credit of depositors in the Government Savings Banks $5,931,989.69, viz.: from $15,836,672.00 to $21,768,661.69. Investments were made during the year of $4,725,926.67, the greater part consisting of sums placed at interest with various chartered Banks.

Through the surplus Revenues and the redemption of Debt, the net debt of the Dominion has decreased during the year $1,734,129.62, and by the retirement of the $4,000,000 of debt bearing 6 °/₀ and 5 °/₀ interest, the average rate of interest payable

on the net debt has been decreased during the year from 4.47 to 4.43 %, and in the debt payable in England from 4.43 to 4.39 %.

During the year the Government received from the Canadian Pacific Railway Company the sum of $1,600,000 being the equivalent of the proceeds of $5,000,000 of Land Grant Bonds at 92; out of which, during the same period, the Company earned $2,033,200 by the construction of 221 miles of the prairie section at the rate of $9,200 per mile.

In the present fiscal year, 1882-83, in addition to the redemption of $4,000,000 5 % stock, and about $170,000 of debentures held in the country, the further sum of $1,800,000 is in process of redemption in England; in 1883-84 the amount of debt maturing aggregates $1,300,000, but on the 1st January, 1885, the large Canadian Consolidated 5 % Loan will mature in England, and as the time is rapidly approaching it seems desirable to obtain the necessary legislation towards providing for the same. On the same date a further sum of $950,000 matures in this country, and during the same fiscal year the remaining 5 % stock, amounting to $3,000,000, falls due. In taking into consideration the means of providing for these amounts, I venture to suggest the desirability of creating a Canadian Consols.

I adverted in my last Report to the high rates of interest paid on the Indian and Seigniorial Funds—during the recess I have had an examination made into the several Indian tribal accounts, and found that the larger part of the balance represented the capitalization of annuities, the rate allowed on which could not be decreased without adding sufficient principal to return a similar income, but upon about $900,000, which represented deposits arising from the sales of land, timber, &c., the rate might be reduced, and a reduction to 4 % on that amount has been decided upon. There still remains some $200,000 at the credit of the Seigniorial Fund bearing 6 % interest, and if it could be done, it would be advisable to pay off this sum.

I mentioned that pending the settlement of the Province accounts, I had retained in the main the preliminary statements in their usual form. I am glad to state that after correspondence, the Treasurers of the Provinces of Ontario and Quebec met in this Department on the 23rd of November last, and after a conference drew up a memorandum requesting, in effect, the rendering of cash accounts on the basis of the award—these accounts are now all but complete, and will shortly be ready to be presented. I sincerely trust that their settlement is now within measurable distance.

Acting on the order of the Sub-Committee of the Public Accounts Committee appointed during the last Session of Parliament, I have gathered together and prepared a statement showing the cost of all works appertaining to the Dominion, and I have added thereto the value of the stores and materiel under control of the several Departments. The statement is taken in great measure from a compilation prepared with much care by Mr. Dionne, Accountant of the Public Works Department. It refers entirely to properties, and shows a gross cost of $135,004,995.10, of which

$99,054,822.53 has been expended since Confederation; $20,919,353.89 of the expenditure has been met out of income. In addition to this, and not included in the statement, there has been expended since Confederation :—

On Canals, Repairs	$2,334,405 47
Public Buildings, Repairs	3,056,610 29
Harbours and Breakwaters, not included in statement	1,287,679 58
Dredges, Repairs	49,289 21
Dredging	642,478 95
Slides and Booms, Repairs	495,259 43
Surveys	399,623 47
	$8,265,346 40

The Sterling Exchange purchased during the year amounted to £2,240,903, and the discount below par on the purchase of the same was $63,830.66, this would represent an average purchase during the year at the rate of about 8⅘ per cent. The profit on the silver coinage was $57,502.05, and on the copper coinage $11,862.21, these two sums being credited to Casual Revenue.

I have mentioned in previous years that I received from the officers of the Department generally, effective and zealous support in carrying on its affairs. I am glad to be enabled to again report in the same terms, and to state that while, through the remarkable increase in the business of the country, the daily work of the Department has greatly increased, the pressure has been met by redistribution and rearrangement of the work. I append a statement showing the increase of work in some branches of the Department, and amounts paid for salaries of the staff during the four last fiscal years, from which it will be seen that the cost of the staff has only increased $1,626.58, which, taking into account the fact that the annual increments to the salaries during that period amounted to about $4,000, may be regarded as satisfactory.

—	1878-79.	1879-80.	1880-81.	1881-82.
Money Order Business	$11,749,713 57	$12,590,874 77	$13,337,523 46	$14,112,006 73
Issue and Redemption of Currency	$2,946,010 00	$4,900,941 00	$3,262,903 00	$4,006,583 00
Savings Bank Accounts remaining open	22,622	25,468	[illegible]	33,748
Salaries of Staff	$51,068 32	$51,454 91	$52,058 28	$52,694 90

The whole of which is respectfully submitted.

J. M. COURTNEY,

Deputy Minister of Finance.

N B.—The reduction in the rate of interest is greater than exhibited in the above statement, inasmuch as certain loans bearing interest at 6 per cent. and payable in Canada, were redeemed out of the proceeds of the 4 per cent loans negotiated in England.

Comparative Statement of the Debt of Canada, from 1st July, 1867, to 1st July 1882, according to the rate of Interest it bears.
